

**TUCSON  
HISTORIC  
PRESERVATION  
FOUNDATION**

November 11, 2013

It is difficult to recommend Oden Construction without a possible excess of superlatives. As President of the Tucson Historic Preservation Foundation, and member of the Tucson Pima County Historical Commission I have had the opportunity to work with Oden and review their craftsmanship on multiple projects.

Lead by Randy Oden the firm takes historic preservation incredibly seriously and their work reflects the high value our community places on cultural resources. The high level craftsmanship and stunning completed projects has made Oden Construction one of the most respected preservation contractors in our region. The pueblo revival Tucson Medical Center Erickson House recently completed by Oden in partnership with Barker-Morrissey Contracting is an award-winning example of their work.

Oden is one of those rare individuals who will continue to make a significant difference in preserving our cultural heritage. He is creative, curious, inventive, and a thoughtful. He is highly respected by the community and his workmanship has won numerous local and state awards. I am confident that he will be an asset to the to your preservation project.

Please feel free to contact me with any questions.

Sincerely,

Demion Clinco  
President  
Tucson Historic Preservation Foundation
